Boxes for vintage Boss pedals

by **slivoid** » 21 Jun 2012, 08:05

Hi !

I have many vintage Boss pedals, which I collect and use occasionally.
But I don't have a lot of boxes, to protect them when I do not use it.
Do you know where I can order empty boxes (simple boxes, not necessarily marked Boss) but with the right size, on eBay or other... ?

Thanks

You can buy *Ferrero Rocher* chocolate in plastic boxes that are simply perfect for BOSS pedals. Our dear member The_Doc uses them to display his collection. Currently I'm using one as well for a DF-2:

Thanks Pepe - these boxes are the best ! Here's a couple of photos of mine in use that I've posted here before - you can even stack them and still see the pedals

This is a great idea! But I just trying to protect, not to expose them.
A cardboard box would be perfect.

However, Ferrero Rocher is very very good ! Miam

You can get the correct size boxes from almost any packaging wholesaler in North America. We buy the standard 3" x 3" x 6" boxes for DingoTone. They fit Boss just fine.

You don't list your location, so I don't know if that helps.

"Miam" is French for "Yum" right?... although France is not the only French speaking country...

EDIT:... oh, wait... First post says he's French...

Yes, I'm French

But thanks for the tip.
I will continue my research and found a box with these dimensions

Hello compatriote

Peut-être aurais tu une idée.
J'ai trouvé une boite qui fabrique des emballages cartons, mais par lots de 50.
Or, si j'en ai besoin de 20-25, c'est le grand maximum...

(for eglish member, I ask him if he have an idea to sell boxes in france)

Relax, he's providing instant translation, so I don't see a problem here.

Indeed IMO it's cool to gain more international attention!

Sorry.
I speak english next time.

But, as you understood, I'm crap in English

Votre anglais est parfaitement compréhensible, mais il n'y a aucune règle indiquant que vous devez poster en anglais

(excuses pour mon mauvais français)

@ Natthu : your sentence is perfect !

@ Silvoid (in english) : I don't no for the boxes in France, mine are on the floor without protection. Ferrero boxes are great idea but wait Christmas... I'm doing a diet before summer.

A late reply I know (plus I'm a newbie - came looking for other stuff and noticed a similar problem I have myself)...

But...

A fair few smartphones these days (e.g. Samsung Galaxy S; Nokia Lumia 800) have a similar footprint to Boss pedals and, given the accessories they come with, means... their boxes are pretty much perfect to house...

Boss Pedals.

Plus (and this is key), given that the products they house sell for three or four times the cost of an FX pedal, they're very robust. Check'em out. I'm using some just now for a DC-2, a PH-1r and an EH-2.

p.s. I'd just like to say... I'm so glad I'm not alone. You guys have helped me feel like I'm not the only one who...ahem... feels this way about fx pedals...! xx
