Favorite Boss Pedal series

by **Hexade** » 24 Dec 2016, 20:11

Hey all! This is my first post on this forum but I used to be pretty active at the old bosssrea forum. I'm not sure if this has been covered yet but what is everyone's favorite boss pedal series IE: the -2s, -3s, -5s, -6s etc. It doesn't have to be from a series that contains a ton of pedals, rather, which series do you think has the greatest number of your favorites? Please list your top 3 (if applicable) from your series! Here's mine:

I'd have to go with the -2 series (which was a toss up). These are the must-haves for me:

PN-2, LM-2, and either the DD-2 or BF-2.

Runner up are the -3 series (PS-3 might be my all time favorite pedal).

Ok, GO!

Well,

As far as dirt goes, I've got a DA-2, ML-2, OS-2 and liked the OD-2R. I so love my HF-2 and am looki g at the CE-2W.

"2" for me as well: CE-2(B), DC-2, DD-2, FT-2, FZ-2, HM-2, LM-2, OD-2R, PN-2, SD-2, VB-2, XT-2 ... those are all terrific units.

"4" is also 100% satisfying.

Me 2, the "2" series.

CE-2, DD-2, DC-2, HM-2, BD-2.... Pretty much anything, except for that AW-2 that I dislike so much.

Another for the 2 series!

Although I'd be missing my OD-3 and RV-3 but RV-2 is good too!

Has to be the two series - TU-2 -> BD-2 -> DS-2 -> DM-2 -> TR-2 -> RV-2 sitting in a BCB-60, and I'd be fine.

hmm.....

nah....

but...hmm.....

I also vote for the 2 series, have a PN-2 on my board right now and a CE-2 and HF-2 lying around.
I had a DC-2, DF-2, CS-2 and XT-2 at one point which I all liked.

Waza 2-series, if that's an option
DM-2W, CE-2W and I'm sure the VB-2W is great too.
If not, 2 series: DM-2, RV-2, TR-2

I was often on the 2 and the 3 series :

I have SYB-3. I had CS-3, DD-3. I like ODB-3, PH-3.

I had FZ-2, PH-2, OC-2, and I have FB-2. I like HF-2, PS-2, XT-2.

Now I don't have CS-3, replaced by the FB-2 and about the DD-3 : I prefer DD-7, more features and delay sound is almost identical.

Ok I'm going to defect a little. After some thought I'd say it's a tie between 2s and 3s.

PS-3
DC-3
RV-3

Tied with PN-2, LM-2 and DD, HF, BF or DM -2

The fact that there is a five-way tie in the 2 series for must-have pedals and I had a hard time finding 3 from the 3

series is why I originally said the 2s. If I could only pick 3 from one series though it'd be hard. I didn't even get into the dirt pedals but that's because my number one isn't a Boss and I haven't found one that I'd consider indispensable.

Oops. Kinda missed the "top-3" thing and got the others started on the wrong path haha.

Still, there are a lot of "2"s on my board, so 2 is the one.

DA-2
HF-2
LS-2 (because yeah, I switch a LOT from dirt to chorus/flanger, so the LS-2 is indispensable in my play).
