Got these the other day. What's that, a Duo Sonic. And what's that lurking in the back? One of those Genz Benz Black Pearl 2x12 cabs. Don't mind if I do.....

Dude... you must send me some seeds from that money tree you appear to have....

You've built up a brilliant collection of gear there

Another new guitar?

Well, I guess you can never have too many

Is it vintage or re-issue?

You seem to be building up a great collection of shortscale/offset Fenders. How about a group shot? Would love to see them all together.

Forgot to say, it's a mid 90's RI. Was going for less than a Squier on the bay. It's a cracking wee guitar. Wee being the word. I think it's a 22.5" scale. But I like it. It weighs nothing, and plays well. Just needs restrung.

natthu - No money tree I'm afraid. Things just keep popping up super cheap. I suppose it the economy and the time of the year. I happen to have a 'gear stash' of money. It is now depleted. I shall have to start saving. I've also punted a few bits and pieces. (my Trace Elliot amp and a Whammy pedal) Also toying with letting my cream and gold Jaguar go. I'm, just not using it.

Just toying with the idea. If I decide to let it go I'll PM you, or put a post up in the classified.
